

RAPID PROCESS AUTOMATION FOR TAKING PAYMENTS AND MAKING PAYMENT PLANS

INTRODUCING THE MX INTEGRATION ENGINE

PayRight Health, through its MX product suite, focuses on optimizing healthcare payments. The MX suite includes tools for healthcare in-office payments, HIPAA compliant online bill pay, and back office payments. The newest addition is the MX Integration Engine, a proprietary, cloud-based tool that integrates payments into virtually any medical, dental or allied health practice management system (PMS).

PRODUCT FEATURES

ROBUST HIPAA & PCI COMPLIANT PAYMENT GATEWAY SPECIFICALLY DESIGNED FOR HEALTHCARE

- ▲ Enables credit, debit, ACH, and patient payment plan options
- ▲ Integrates online and offline payments
- ▲ Creates patient wallets and recurring payments
- ▲ Tracks patient payment history and receipts
- ▲ Improves in-office collections 10-15%

EASY INTEGRATION FROM MX TO A VARIETY OF PMS SYSTEMS VIA THE INTEGRATION ENGINE

- ▲ Enables synch of patient demographics and payment information with PMS
- ▲ Remote mapping new systems in under one (1) hour
- ▲ Custom mapping available for enterprise customers
- ▲ No costly IT project from PMS vendor or HL7 requirement

WHITE GLOVE SERVICE IMPLEMENTATION

- ▲ Activate your merchant account with Priority Merchant Services
- ▲ Submit completed program setup form to Priority PayRight Health
- ▲ That's it! Our implementation team will get your practice deployed within seven (7) days
